because we found that for twenty-one years he has been the physical adviser to the most prominent men and women in Chicago—that famous physicians and surgeons all over the country called upon him for co-operation and used his services. His establishment in the Great Northern Building has gained nation-wide reputation. We found that doctors, business men and society women confirmed our judgment that Peter L Peel is Chicago's foremost physical therapist.

Peter J. Peel's Two-Year Test.

He consented to investigate the Gardner Reducing Machine because he is always eagur to equip his establishment with the intest improvements, and he realized the need for some standard method of reducing flesh. For two years he studied and investigated the Gardner Reducing Machine in actual use. He treated hundreds of men and women and kept a close reserved of each case. He says the results were simply marvelous. Now he gives the Gardner Reducing Machine his unqualified indersement, for it has revolutionized the treatment of obasity. He consented to investigate the Gardner Reducing Machine because he is always easer to equip his establishment with the latest improvements, and he realised the need for some standard method of reducing fissh. For two years he studied and investigated the Gardner Reducing Machine in actual use. He treated hundreds of man and women and kept a close record of each case. He says the results were simply marvelous. New he gives the Gardner Reducing Machine his unqualified indorsement, for it has revolutionized the treatment of obesity. He has proved it by a two years' test

The remedy which he suggests is, anturally, early training. But who is to do the raining? American school teachers are often as much at fault as other Americans, and the parsuns are the product of a system that has likewise produced no change in the character of American enunciation.

Dr. Grayens suggests that school authorities compail teachers to speak clearly and cultivate a resonant voice. This puts a great burden on teachers whose habits of enunciation are fixed, but if the reform is to be accomplished through the schools the teachers must take the lead. The suggestion involves the admission of an American fault, which, while it is not important, is nevertheless a fault, and the labor necessary to its correction. The reform will come through the schools to the mand not because in Europe it is possible to them and not because in Europe it is gonsidered the mark of culture.

Are You to Blame for Your Shoes

Men are asking each other, "What is the matter with shoes?" You pay more and the shoes look like they used tobut they don't behave as well.

What are the facts? What is the matter with shoes?

the trouble is with you. The average manufacturer is afraid of you-afraid to trust your intelligence and common-sense. He knows you have always bought shoes by eye and he glosses over the facts.

Your shoe-dealer is to blame too. He has great pride of opinion: and there is much about a shoe that only wear

thinking enough about what is behind the shoe—the idea, the principle, the institution.

These are times when you have to think back to that "something" built into the shoe—bigger than the shoe. Call

it principle if you like, call it purpose. If it's there, your shoe

is right.

That bigger thing, that institution back of it all, is what gives you in Regal Shoes something more than a matterof-opinion shoe. It gives you a matter-of-fact shoe-and facts are stubborn things.

The Regal idea from the start was to give the best shoevalue in America for the money. It is the idea back of the Regal business today. That is why we have over two million wearers of Regal Shoes.

The demand of our trade for better and better shoes led us to the highest grade of shoe-making: \$5, \$6, \$7 shoes. In order to put a better shoe on your foot at a given price, we established our own stores.

There are forty Regal Stores in the Metropolitan Centers. And about one thousand dealers, special Regal representa-tives, in other towns and cities—all giving you the Regal values. Price stamped on sole of the shoe.

Because of our exacting city trade, Regal styles have to be in the very fore-front of the fashion.

We have specialized for twenty-five years in developing the smartest fashion—in lasts that give comfort on the foot.

All our leathers are of special tannage—fresh, selected hides and skins. There is life in this leather. There is no

wear in leather that is dry and brittle.

What you want is the 'glovey' feeling; pliable but tough.

You can't get it for \$4 any more. We advise you to pay \$5, and up—and to get Regal Shoes if you can,

RIDDER DISPUTES HAPGOOD: ACCUSES SENATOR KELLER.

Says Illinois Man, and Then Stone and Burleson, Sought Aid of the German-Americans.

New York, Oct. 11.—[Special.]—Victor Ridder of the New York Stata-Zeitung today issued a public statement denying the claim made by Norman Hapgood that Mr. Ridder had told State Senator Kent E. Keller of Illinois that he had written a speech for Charles E. Hughes in which Mr. Hughes would attack England in order to retain German votes.

He said that the only conversation which he had had with Mr. Keller was when the Illinois man had asked him to call on President Wilson. The invitation, Ridder said, was refused. He offers the statements made by others present at the interview to support his

After Keller's call, Ridder suys, Sen-ator W. J. Stone and Secretary Burle-son, on behalf of Mr. Wilson, called on him to offer the same invitation. He

What Is This Club?

It is the Britannica Club, consisting of the 150,000 men and women who have purchased the Encyclopaedia

great work by paying only \$1.00
down and \$3.00 a month for a limited time,
you are a full member from the moment you pay that dollar, and entitled to use in your own business or for your own pleasure all the knowledge and experience of the 1500 distinguished specialists who have contrib-uted to the Britannica. They will give you any information you need.

Everything that the 1500 experts who made the Britannica know could not be published in 29 volumes or in 2900, but if you are a member of the Britannica Club you can use as your own the knowledge and experience of these men by writing the editor to find out for you whatever you may wish to know.

The 1500 contributors to the Britannica are all your servants.

A Man Is Known by His Club

It is a credit to you if you belong to the best clubs in your town, it brings you into contact with the leaders of the community and makes you known as one of them. If you belong to the Britannica Club, you will also have daily association with the best minds in the world and your fellow citizens will know you as the man who cares enough to make sure that when he says anything

Nobody can know everything. The wisest man in the world could not possibly carry about in his head all the information that there is in the Encyclopaedia Britannica. Even if he could, he would have no advantage over you, for you can have it at your finger's end if you are a Britannica owner.

But there are men—you know some in your community—who are masters of their own specialty and whose word you would take as final upon any question that concerned their business, whether it were a knotty point of law or only the best way to clean a smoky chimney.

Suppose that you were in a heated argument on American politics, and you could say, "I know this to be so, because my friend, James Bryce—man that wrote The American Commonwealth, you know—told me so." Wouldn't that settle the question?

Or, if a group of friends are talking about the wonders of radium, in that half-informed, rather vague fashion that most of us do talk rather vague fashion that most of us do talk about scientific subjects, would it or would it not clear matters up if you could give some clear, definite information on the topic, and add, "I had this straight from Sir Ernest Rutherford, the man who won the Nobel Prize for chemistry in 1908"?

Or, again, if you were only talking about the weather, can you think of anyone whose opinion you would rather have than that of the professor of meteorology of the United States Weather Bureau?

These men and 1500 other authorities of qual standing and reputation in the hosen fields, are the servants of the n bers of the Britannica Clu

There is no charge for this service; it is your right to ask it as a purchaser of the Encyclopaedia Britannica.

If you walked into the Union Club, of New York, or the Rittenhouse Club, of Philadelphia, and asked each member you met on what day and month Washington was born, and whether it is true that he cut down the famous cherry tree, it is probable that you would get an incorrect answer from everybody who took the trouble to reply to your question. But if you were to ask Professor MacDonald, of Brown University, Professor of American History, he would tell you that Washington was born on February 11, 1732, and that the cherry tree story was invented after Washington's death by a biographer who was less truthful than the hero of his narrative.

If you asked the men of your acquaintance why the sky was blue, how many do you think could answer your question? If you belonged to the Britannica Club, you could ask Lord Rayleigh, Chancellor of the University of Cambridge, to explain it to you.

Is there any club that you could join that would help your standing in the community so much, or be of greater advantage to you personally?

Carrigan went into the game himself today to handle Leonard's stuff, and the way he worked the big southpaw was a wonder. The veteran backhe ped Dutch out of the deep hole went into in the first round by resking up a double steal neatly, and once Leonard found his feet after that ning attack Carrigan saw to it that he never left them again. Once later on in the fourth inning, the Robins ried to start something, and got two men on, with nobody out. Olson, hero f yesterday's game, helped Leonard out of that rough going by bunting a oop fly in the crucial moment.

The commission declared that the capitalization of the new company possible. Is excessive, but by eliminating some of the disastrous financial deals of the old company the reorganized company really is stronger financially than the old.

The offensive part of the reorganization plan is the methods of disposing at the claims which grew out of the operation of the road, and the reckless maste of money in payments to syndicates and committees that participated in the reorganization." the commission says. "There was a large number of claims that had been adjudicated or were in the process of adjudication, such as personal damages, due to employés of the road, loss of merchandise of shippers, killing of stock of farmers, and operating claims of such a general character.

friends," said Miss Addams, "and they have forbidden me to do any active work for the present. I am to stay at the home of Miss Smith for a few days. Then I shall decide what my plans are. I shall probably have office hours at Hull house for a few hours every day, but I am not to be allowed to be as active as I should like to be. I feel well and I am glad to be back in Chicago again."

Miss Addams has spent the summer at the Bar Harbor residence of Mrs. Joseph T. Bowen. One reason for coming home at this time was her desire to register on Tuesday so that she may vote for President Wilson.

Lest you fear that these functions will be too fuvenile for your adult inclinations let me reassure you by printing Mr. Lindsay's instructions to his auditnos. "I would like." he writes, "to ask my Chicago friends to familiarize themselves with my pieces, especially 'King Solomon and the Queen of Shebs. This appears in the June number of Poetry, Harriet Monroe's magazine. For this number I will call upon the audience at the times indicated in the text to make some simple responses. "When the king and queen sing 'King Solomon he had four hundred oxen' you are to respond in the same cadence: 'We were the oxen' When we sing 'He had four hundred sweethearts' you are to reply in kind, and in like manner in regard to the swans, sons, ponies, sailors, and shepherds. When we sing 'The teeth of all his chiefs were set with diamonds' you are to reply 'We were the chieftains.' And at the end when we sing 'We stamped and whirled and wept and shouted' you are to reply 'Glory, we were his people.' This last is the only one necessary to remember with any pains. All that precedes takes care of itself. But it might be well to insist that this is a poem-game, and the 'glory' is a poem-game, and the 'glory' is only to be long drawn out but uinely religiously fervent and heart-And you are to stand up in your

A Distinctive Reason

What is the chief reason for the superiority of Dr. Price's Cream Baking Powder?

There are several good reasons, but there is one wnich distinguishes Dr. Price's from other baking powders.

This reason, which every woman should know, is that Dr. Price's Baking Powder is made from Cream of Tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in cheaper baking powders.
